

## *Acknowledgements*

We would like to thank the EIIS Evaluation Working group for setting into motion the Region's evaluation plan and for their efforts in developing the various questionnaires used in this evaluation. Thank you also to the members of the EIIS Implementation Team for their contributions to the evaluation process, particularly in reviewing and providing feedback on several drafts of the survey tools.

Thank you to the partnering organizations and individuals who participated in the pilot of the regional evaluation questionnaires and for providing valuable feedback in their development.

We would also like to extend our thanks to the families and service providers across the Western Region who participated in this evaluation process. Your responses have provided us with insight into the EIIS initiative and an understanding of the challenges you face in meeting the needs of children with Autistic Spectrum Disorders.
